CONFORMATION

Hanz P comes from a prosperous breeding of Mr. Daňhel. He is a heterozygously polled son of the now legendary bull Giono. In the position of the dam's sire we also find the French insemination bull Azelier. FMM is also the legendary bull from the Natural program Jock from Cunkov. Hanz weighed 635 kg in the year and was rated 79 points for exterior.

We are expecting great muscling from his progeny. Hanz is a heterozygous carrier of the F94L gene.
