CONFORMATION

Jackpot was awarded an excellent 88 points in the basic selection. He is a modern, polled Charolais bull that combines significant growth potential, top utility type, and balanced conformation. He appears very harmonious, with a spacious body frame, solid foundation, and quality musculature – exactly what today's breeding demands.

Thanks to his homozygous polledness (PP), he brings certainty in calf rearing, easier management, and higher welfare. Jackpot PP is the ideal choice for breeders who want to combine polledness, growth, and an attractive meat type without compromise.
