CONFORMATION

Also Regal was purchased at the Sommet elevage show in 2021. His sire Nepal is a show bull with excellent muscling and fineness. Regal's dam is the fantastic cow Nancy, who has an absolutely extraordinary BV. Growth 110, muscling 104, frame 116, ISEVR 109, milk yield 114, IVMAT 119 and the ISU index (index of function and progeny production) has the highest value in France at 143! Regal has a large frame and exceptional muscling. His unrelated origin predisposes him to be used extensively on our population. We recommend Regal for cows until proven, but we expect easy births.
